

The Adventures of...

# Peggy and Bertie Blackwell

Episode 3

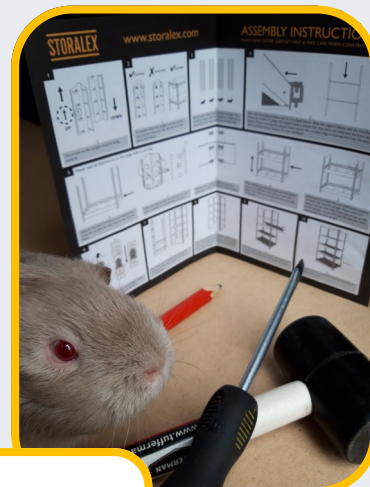

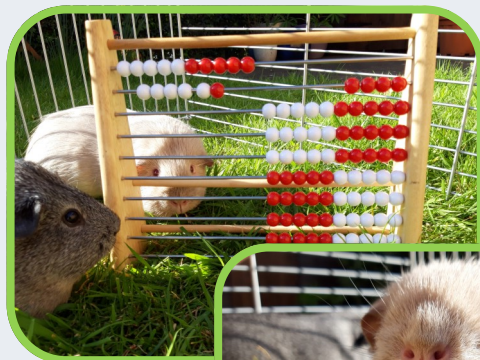

### Story Time

Miss Kuriger has been reading my favourite book to me. I think Romeo is handsome. Bertie disagrees.

**Science** We have been identifying plants that are safe for guineas to chomp. We had to look at the leaves carefully. We liked sticky weed but it felt odd on our tongues!

### Design Technology

I helped Miss Kuriger put up shelves in the shed. It said a 2 person job so she was glad of my help. Peggy helped paint the shed.

**Maths** I was helping Bertie with his numbers on the abacus. But he was a bit rude when it came to use the counting stick. He told Miss Kuriger that he would rather have a celery stick. She was not impressed.

**Staff Meeting** Mrs James was surprised to see us but we do have important jobs so we wouldn't miss a staff meeting.
