

The Adventures of...

# Peggy and Bertie Blackwell

Episode 1

Miss Kuriger has told us some sad news that we won't be able to go to school for a little while.

We thought we would send you a little update. What does learning from home look like for a guinea pig?

## Play Time

We met up with Miss Kuriger's guineas, Hazel, Olive and Ivy. Miss Kuriger has warned us not to speak to the neighbours though.

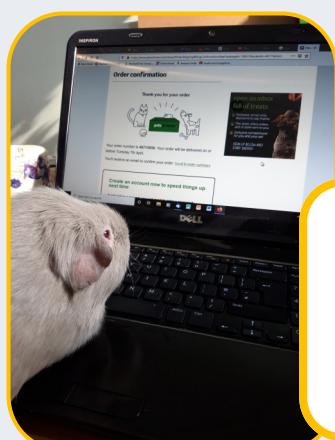

**Gardening Club**  
We are experts at this lesson, especially when it comes to mowing the lawn.

## Fine Motor Skills

Jigsaws are a good lesson but it is tempting to eat the pieces.

**Computing**  
I learnt how to order hay online. It worked! The postman brought me my parcel today. Magic!

Miss Kuriger says she hopes this made you smile. Look out for episode 2 coming soon!

**History**  
Miss Kuriger taught us about rationing. We do not like the sound of this word. I have been guarding my hay.

# The Adventures of... Hetty Blackwell

Episode 1

It is sad news that I can't come to school for a while, so I thought I had better update you on a bit of learning from home for me.

## Literacy and Maths

I have been trying to help Florence with her learning but Mrs James has made it a bit tricky for dogs. I will keep trying hard between snoozes.

## P.E.

Although I have little legs and don't like walking much, I can be good in this lesson...if it is something like yoga.

## PSHE

This lesson is all about being healthy. I have been working on being healthy by sunbathing and topping up my tan. I once heard that sunlight is good for getting Vitamin D. I shall be very healthy if this weather continues.

## Philosophy

Of course I have been doing lots of 'deep thinking' for philosophy too...about bones and chicken and cheese and ham and...

By the way, I have heard a terrible rumour that I need to put right...I know in assembly when I snore it might look like I'm not interested. This is not true. Mrs Moss, I am interested, I am just deep in thought and resting my eyes.

Thank you to Mrs Richards and Florence for the photographs!
